INTERESTS

Cars & Planes

Speed with control is a beautiful combination but speed without control is really ugly. I love speed and when it's about planes I love heights too, I can literally say "Sky is the limit". The way these two machine works really fascinates me. It gives so much inspiration when I see any documentary about these. In a sentence "A gentle push in the gas pedal takes us to somewhere we love, we want to be."

Music

Music brings peace to our mind. I love to play guitar. I used to be a member of a band and play guitar.
